

## Atotech celebrates the inauguration of its R&D and TechCenter in India

March 18, 2021

BERLIN, March 18, 2021 (GLOBE NEWSWIRE) -- Today Atotech (NYSE: ATC), a leading specialty chemicals technology company and a market leader in advanced electroplating solutions, formally celebrated the inauguration of the Atotech Development Center ("ADC") in Manesar, India. Although the facility has been fully operational since late 2020, the pandemic delayed the official inauguration of the ADC.

Geoff Wild, CEO Atotech, said, "The opening of the ADC was an important milestone for our Company. It now serves as a critical component in strengthening our global R&D organization and will also drive the company's overall innovation, growth and success. We are also very pleased that our ADC employees are enjoying working at this facility, which was completed with their safety, comfort, and well-being in mind."

The ADC is a world-class R&D facility and the largest TechCenter of its kind in India, encompassing 20,000 square meters of floor space, containing 17 fully automated plating lines and 39 high-end laboratories outfitted with state-of-the-art equipment. The ADC serves as a global hub for Atotech's development, testing and qualification of some of the most innovative and sustainable products in the surface-finishing industry. Atotech's customers from around the world will benefit from this investment through faster product-cycle times and a dedicated focus on delivering and supporting some of the most comprehensive surface-finishing solutions in the industry.

The Atotech team celebrated the opening in a safe manner by taking all the necessary steps to follow COVID-19 precautionary measures for the event.

### About Atotech

Atotech (NYSE: ATC) is a leading specialty chemicals technology company and a market leader in advanced electroplating solutions. Atotech delivers chemistry, equipment, software, and services for innovative technology applications through an integrated systems-and-solutions approach.
